

W3C HTML5 Testing Task Force

testthewebforward.org

Paris 2012

Apple, Areyh Gregor, Baidu,
Comcast, David Carlisle,
Google, Infraware, Intel,
MOSQUITO, Mathias Bynens,
Microsoft, Mozilla, Ms2Ger,
Opera, Philip Taylor, W3C,
HTML4Bidi

*Who?

- Formal Part of the W3C HTML WG
 - <http://www.w3.org/html/wg/>
- Started in Oct 2009
- We creates tests to test the HTML5 Specification
- 11,898 ‘Approved’ tests exist for *anyone to use*
- Beyond ‘Tests’
 - CVS -> Hg
 - <http://www.w3c-test.org/>
 - testharness.js

*What?

- * Enables web authors to use the ‘same markup’
- * We have good ‘depth’ not breath
- * Critical part of getting the HTML5 spec to REC

*Why?

Getting Started

Ask questions and participate on 'list'

<http://lists.w3.org/Archives/Public/public-html-testsuite/>

Read the wiki

<http://www.w3.org/html/wg/wiki/Testing>

 **How!**

- * Chapter 4 (HTML Elements)

<http://www.w3.org/TR/html5/single-page.html#semantics>

- * Feature that do not work well across browsers

 Hack Session Focus
